High-pressure two-stage belt driven compressor particularly suitable for car repair shops, tyre shops and professionals requiring high working pressures. It is equipped with a highly efficient 5.5 hp pump unit with cast iron cylinders and large manifolds for improved cooling, as well as an oversized intake filter engineered to reduce noise levels and optimize compressor performance. The robust plastic belt guard protects all moving parts. The 270-litre tank for a large air reserve with four sturdy support feet with vibration dampers make it stable during operation.
